

**FOLEY & LARDNER LLP**

Foley & Lardner LLP specializes in Business Law, Intellectual Property, Litigation, Government & Public Policy, and International law. We retained Ms. Saper in 2010, to provide translation and interpretation services with respect to an asylum application of an Iranian national. Ms. Saper provided us with two types of translation work:

- First, she translated several Persian language texts, both in the format of legal documents and handwritten letters, as well as audio recordings in the format of radio and television interviews.
- Secondly, she simultaneously interpreted our client's responses during her interview with the U.S. Citizen and Immigration Services. Shortly after this interview the decision for asylum was granted to our client.

Ms. Saper was a professional in every aspect of the assignment and proved her command and competency of both the English and Persian languages during the many hours she spent on the project.
